NOTICE OF ALLOWANCE

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frank DeRosa on December 1, 2005.

The application has been amended as follows:

In claim 1, line 1, insert "computer implemented" prior to –method-;

In claim 2, line 1, insert "computer implemented" prior to –method-;

In claim 3, line 1, insert "computer implemented" prior to –method-;

In claim 4, line 1, insert "computer implemented" prior to –method-;

In claim 5, line 1, insert "computer implemented" prior to –method-;

In claim 6, line 1, insert "computer implemented" prior to –method-;

In claim 7, line 1, insert "computer implemented" prior to –method-;

In claim 9, line 1, insert "computer implemented" prior to –method-;

In claim 10, line 1, insert "computer implemented" prior to –method-;

In claim 11, line 1, insert "computer implemented" prior to –method-;

Please amend claim 23 as follows:

23. (Currently Amended) A computer system to control incremental access authentication to secured data, the computer systems comprising:

a database that is partitioned into a plurality of data classes, wherein each data class is assigned a range of confidence scores based on a security level of the data class;

a computation module that computes a confidence score using speech input from a user, wherein the confidence score is a measure of confidence in the validity of an identity claim input by the user upon commencement of a dialog session, wherein the computation module computes a confidence score upon occurrence of a predetermined event during the dialog session with the user to determine a current measure of confidence in the validity of the identity claim; and

a dialog manager for controlling access to data in the database during the dialog session, wherein a level of access to the data classes is limited to a data class in which a current confidence score meets or exceeds a confidence score assigned to that data class, and wherein the level of access to the data classes can be changed during the dialog session, if necessary, according to the current measure of confidence in the validity of the identity claim.
